

# ISLEM HAMMEDI

## ABOUT ME

A third-year computer science student specializing in software engineering at the Higher institute of informatics and mathematic of Monastir (ISIMM). I'm passionate about innovative technology and have developed strong skills in programming and project management, willing to learn and discover more. I'm seeking a 4-month end-of-study internship starting in March 2025 to deepen my knowledge and experience

📞 92161403 ✉ isslem.hammedi@gmail.com  [www.linkedin.com/in/islem-hammedi-161bb228b](https://www.linkedin.com/in/islem-hammedi-161bb228b)  
📍 kairouan, tunisie

## SKILLS

- Programming languages:
  - C
  - java
  - python
  - React js ,Tailwinds css
  - Node , Express
  - Java script
  - plsql , sql
  - php
- technologies and tools
  - html,css
  - git, gitHub
- Machine learning and deep learning
  - Scikit-learn
  - TensorFlow
  - Keras
  - PyTorch

## LANGUAGES

- Arabic :native language
- French: professional capacity
- English : professional capacity( B2 level in EF set )

## EDUCATION

- Higher institute of informatic and mathematics of Monastir 2021-2022  
bachelor of software engineering  
subjects taught: fundamentals of AI, Big data, web, mobile and distributed application development, Virtualization and cloud
- Faculty of sciences of Monastir 2021-2022  
PREPARATORY CYCLE FOR ENGINEERING STUDIES
- Secondary school of Sbikha 2020-2021  
baccalauréat of mathematics

## PROFESSIONAL EXPERIENCE

- summer internship and training in artificial intelligence with It Gate training: 2024  
Project topic: Comparison and implementation of deep learning models for object detection.  
Technologies used: Python, Deep Learning (cnn model ResNet-18 architecture),
- End of year project: January-March 2024  
design of a website that is used to manage members of university clubs and the allocation of administrative rights. Methodology used: 2TUP
- Competitor (IEEE Xtreme 48h) October 2024  
Participation in the IEEE Xtreme problem solving competition, at ISIMM. Solving complex algorithmic problems using different programming languages where I exploited my thinking and programming skills
- End of study internship With Sac-consulting: February- Mai 2025  
As part of my end-of-study internship, I collaborated with a partner to develop a full-stack web application using React and Tailwind CSS for the frontend, and Node.js with Express and MySQL for the backend. This project allowed me to apply my skills in modern web development, API integration, and database management while working in a team environment.

## CERTIFICATIONS

- Certificate of participation for AI training with ITGate Sousse June,2024
- Certificate of participation in a summer internship with ITGate Sousse . 2024
- Course Fundamentals of AI on the edx platform 2024
- certificate of participation: robotics training with CPU 2023
- HP LIFE Certificates of Completion: Design Thinking,success mindset, IT for business success. 2022
